On behalf of Utah State University and the Logan community, we thank you for your interest in the Summer Citizens Program based in beautiful Logan, Utah. Nestled in the breathtaking Cache Valley, Logan not only serves as a wonderful place to live, but also as a gateway to several national parks and other famous sites in Utah.

WE INVITE YOU TO SEE ALL YOU CAN SEE WHILE VISITING OUR BEAUTIFUL CITY

From outdoors to arts to heritage to restaurants and shopping, you can experience it all. If you crave the great outdoors, try canoeing on the Bear River. It's a beautiful way to get out in nature, see some beautiful birds and other wildlife and enjoy some solitude. You can rent one inexpensively from USU Outdoor Recreation or Muddy

Road Outfitters. Head up Logan Canyon National Scenic Byway (only a 5 minute drive from downtown) for a picnic,

hiking, mountain biking, or feeding the ducks. The wildflowers are stunning and you might even see a moose. Still not cool enough? We've got great fishing and three beautiful golf courses with even more beautiful prices. If relaxing in an air-conditioned environment is more your style, catch a free concert at noon Monday-Friday at the Tabernacle, and enjoy some of our delicious locally made ice cream. The city of Logan boasts one of the most robust arts scenes in the state. Check out community and fine arts festivals, repertory theater productions, nationally renowned Broadway and opera performances, free weekday concerts and gallery walks. If partying is more your style, hold on tight for the week long 4th of July celebrations, including Logan's magnificent Freedom Fire celebration featuring bands, the Ameri-

can Festival Chorus, and spectacular fireworks. In the midst of our great patriotic celebrations, check out the Cache Valley Cruise-In the week of July 4th when a thousand classic cars and motorcycles roll into town. In addition to the local area, you'll find great adventures in virtually all of Utah, southeast Idaho and as far north as Grand Teton and Yellowstone national Parks. Come discover your own adventure right here in Logan Utah.

If your idea of staying busy is more on the educational or cultural side...discover one of the many courses offered on campus by university professors and local experts. These classes are designed specifically for Summer Citizens without the stress of homework and grades.

To become a Summer Citizen participant and enjoy all this program and the Logan community has to offer, please browse through this booklet to learn more. **But hurry, because space is limited and fills up quickly!**

Summer Citizens 101

WHAT IS A SUMMER CITIZEN?

The mission of the Summer Citizens Program is to successfully support the 55+ active adult generation by providing continuing education opportunities. To achieve our mission the program offers a unique combination of education and recreational activities in an affordable setting during the summer semester on the campus of Utah State University.

The program facilitates and provides information regarding low-cost education courses, university food, on campus and off campus lodging, and various recreational activities in Cache Valley and surrounding areas.

The **Summer Citizens Card** is your passport to the many activities, programs and opportunities associated with the Summer Citizens Program. It would be impossible to enjoy the full benefits available without this card. Enjoy all the campus facilities, resources and commercial opportunities usually reserved for students only. Everyone should have one!

In this brochure you will find a Housing Guide detailing lodging opportunities. Simply find an apartment, residence hall, hotel, or RV park that meets your needs, give them a call, and make your reservation today. See a listing on pages 13 and 14. Hurry, spaces are filling quickly.

Up to date information can be found our website, <http://summercitizens.usu.edu>. Log on today. We look forward to seeing you in Logan this summer!

"Summer 2013 was our first summer in Logan. We were amazed at how many activities were available to us. The town is so friendly with a rich history. We'll be back." - Kathleen Neffenger

ENJOY YOUR SUMMER IN LOGAN!

We can't wait to introduce you to our charming community.

Downtown Logan is only a 5-minute drive from outdoor adventure and beauty in the Wasatch-Cache National Forest.

Beautiful Logan Canyon National Scenic Byway is a 41-mile spectacular drive past limestone cliffs, the Logan River, and forested canopies to the turquoise-blue waters of Bear Lake.

The dramatic canyon provides great fishing, hunting, hiking, camping, canoeing, biking, geocaching, horseback riding, and bird-watching. Don't miss Tony Grove Lake, a glacial lake surrounded by wildflowers and a likely spot to spy a moose.
www.logancanyon.org

Cache Valley's dramatic landscape represents the rugged struggle to settle the American West. It's the ancestral home of the Northwest Band of the Shoshone, mountain men roamed and traded furs here in the 1820s, and Mormon pioneers settled the area in the 1850s.

Stop in at the American West Heritage Center, a 160-acre living history center and experience the history of the Old West. Depending on the day, you'll visit with Native Americans, mountain men, farmers, and pioneers. Museum open year-round; living history open seasonally.

*(Located in the historic
Cache County Courthouse)*

Welcome to our rich cultural tapestry of performing and fine arts, nurtured and thriving since 1856. Logan was so artsy that in the early 1900s it was known as the Athens of the West.

Take in a wide variety of fantastic talent at our free Noon Music Concerts at the historic Tabernacle Monday through Friday. Concerts last about 45 minutes.

The Center for the Arts is home of the stunning 1923 Ellen Eccles Theatre, which hosts local, regional, and nationally touring productions, and the beautifully restored 1878 Thatcher-Young Mansion, now an art gallery with rotating exhibits.

Stroll on the beautiful campus of Utah State University, a major research university founded as an agricultural college in 1888. Old Main is an architectural icon and the A on top stands for the Aggies, the USU mascot. www.usu.edu

Take a walking tour of historic downtown Logan, where you'll find great examples of early Mormon pioneer architecture, including the temple and tabernacle, the 1923 Ellen Eccles Theatre, the 1914 Bluebird Café (the oldest restaurant in the state), impressive turn-of-the-century homes and churches, and the beautifully restored Cache County Courthouse, home of the Cache Valley Visitors Bureau.

The internationally renowned Utah Festival Opera and Musical Theatre takes the Ellen Eccles Theatre stage to perform operas and Broadway shows along with concerts, classes, backstage tours, and more. Hundreds of performers from the nation's greatest stages showcase a month of spectacular performances. Don't miss *Les Misérables*, *Oklahoma*, *The Student Prince*, and *Vanessa*. www.utahfestival.org or **435-750-0300 ext. 3**

The Caine-Lyric Theatre opened in 1913 and is home to the Old Lyric Repertory Company, one of the true remaining repertory companies in the nation. Each summer the talented actors and actresses light up the stage with 4-6 productions and offer a charming view of America's theatre past. **435-797-8022**

RESTAURANTS – Logan has more than 70 restaurants to choose from including many unique restaurants with their own specialties as well as various national food chains.

SHOPPING – We've got the chains you're used to like Walmart and Walgreens, a mall with more than 40 stores, and unique shops in the historic downtown area. We have Kohl's but no stores higher end than that. There are plenty of grocery stores too.

CHURCHES – More than two dozen religious denominations welcome visitors to worship. Yes, we do have lots of Mormons here, but don't worry, they're not out to get you. You'll notice quiet Sundays with not a lot of businesses open and larger families than you are probably used to seeing.

What is a Summer Citizens Card? Do I need it? The Summer Citizens Card is mandatory. You will be asked to show your card at all times throughout the summer. It allows you to participate in any on-campus program or event. The card will be used as an identification card for campus services such as recreation facilities, fitness centers, and computer labs; a parking privileges card; and a debit card for dining accounts and select discounts.

What amenities does my Summer Citizens Card allow me to access on campus? The Summer Citizens Card allows access to the Library and Computer Labs on Campus. (*HPER & Fieldhouse are optional*) Be sure to take your card with you for verification.

What do I do when I arrive on campus?

- Park in the Big Blue Terrace located on 700 North, see USU map on page 06.
- Go to the Eccles Conference Center – basement room 103, see map on page 06.
- At the Eccles Conference Center you will pick-up your USU Summer Citizens ID Card if you pre-registered and have had a card issued in prior years. If you have not pre-registered or this is your first summer, you will receive a voucher for the ID card with instructions where to go to get the card printed.
- At the Eccles Conference Center you will also pick-up your USU Parking Pass, Coupon Book, T-Shirt for those who registered online, and other program information
- Eccles Conference Center hours of operation Monday - Friday from 8:00 am to 5:00 pm
- Call 435-797-2028 for additional information

What happens once I register for a Summer Citizens Card and Courses? Once you have registered for a Summer Citizens Card and/or courses, a confirmation letter will be emailed or postage mailed to you. Information about Utah State University and Cache Valley, including a coupon book offering discounts to local vendors, will be provided to you upon check in on campus at the Eccles Conference Center.

Can I just buy one card and share it with my spouse/significant other? Each Summer Citizen participant must have their own card. Your card is used to identify you as a participant in the program, therefore, not allowing you to share your card with anyone else. Your picture and signature are on the Summer Citizens Card.

Who is the coordinator for the Summer Citizens Program? Linda D'Addabbo is the Summer Citizens Coordinator. The Assistant Coordinator is Fallon Ferris. Their offices are located in the basement of the Eccles Conference Center. They can be contacted at Fallon: 435-797-2028 or Linda: 435-797-0425. Or at linda.daddabbo@usu.edu and fallon.ferris@usu.edu.

When are the workout facilities open? The HPER Building is open 7:00 am – 5:00 pm Monday – Thursday. Lap Swim in the HPER is open 12:00 pm – 3:00 pm Monday – Thursday. The Fieldhouse is open 12:00 pm – 7:00 pm Monday – Thursday 12:00 pm - 5:00 pm Friday

Where can I park on campus? The Summer Citizens Parking pass allows parking in all Blue and Yellow Lots. It also allows 4 hours in the Big Blue Parking Terrace, located on 700 North. (*See map on pg 6.*)

Handicap accessible parking? You must have a handicap permit or license plate to park in designated areas.

What is the Welcome and Orientation? The Welcome and Orientation will be held Thursday, May 29th at 2:00 pm in the Taggart Student Center Ballroom. This orientation will be open to everyone! This will be a great place to learn why the Card is such a great value! Summer Citizens will have the opportunity to visit with university and community representatives to learn about benefits and discounts for being a Summer Citizens Cardholder. Be sure to attend!

How do I register for the Closing Social? Fill out the ticket in the back of your coupon booklet and deposit the ticket in the drop box at the Summer Citizens Office in the Eccles Conference Center. The Closing Social is July 31st at 12:00 pm.

If I'm staying at one of the Program Hotels, how will I learn about university and community events during my stay? After each Communication Council meeting, the hotel will be given information that was distributed at the meeting (you are also invited to attend this meeting if you wish). You can also find the information posted on the Summer Citizens website. Short term stay orientations will be held for hotel guests. Visit the website for dates & times.

How will I know about university and community events throughout the summer? Each authorized program apartment complex chooses one or more individuals to be a Communication Council member. These members will attend a bi-weekly meeting where they will receive information/flyers about upcoming events for posting on bulletin boards in your complex. If you have alternative housing, you may attend these meetings to learn about this information. The first communication council

meeting will be held Tuesday, June 4th at 8:30 am. Event information will also be posted on our website calendar of events at summercitizens.usu.edu.

What is the weather like? Even on a hot day it typically cools down in the evening and stays pleasant through most of the morning.

What if I want to bring my pet(s)? Space is extremely limited for those who would like to bring pets. Cambridge Court, Riverside Apartments, Island Inn, and the Weston Inn are the only housing facilities that allow pets. For more details, please contact them directly:

“As we drive into Logan we feel like we have come home. Every year we make more friends who are Summer Citizens and local people. There are so many wonderful things to do in Logan that the hardest problem is which thing to choose. We have fallen in love with Logan and its great people.” - Norma & Bill Heflin

The apartments listed are members of the Utah State University Summer Citizens Program. However, no endorsement, guarantee, or recommendation of these apartments by Utah State University should be implied or presumed from this listing.

AGGIE FLATS is close to the university and offer two and three bedroom apartments in a relaxing and social environment. The apartments are clean, affordable, comfortable and newly renovated. It is a quiet location with on-site managers, game nights, and dinner socials. Rates include high speed wireless internet, DirecTV, and all utilities. Come celebrate your summer with Aggie Flats.

APPLETREE COVE is a new experience in summer housing, tucked away off the street for privacy and close to the USU campus. Constructed in 2008 with many extras such as double walled separation between units, large Low-E windows, built in microwave, free internet connection in every room, free TV included, cable services available but not included, central air, dishwasher (dishes, pots, pans, glasses and utensils included), and front loading washer and dryer, makes everything just a little nicer than you would expect in a rental. Summer options available. Call for details.

BLUE SQUARE is conveniently located across the street from campus and Romney Football Stadium! We provide Summer Citizens with flexible 1, 2, & 4 bedrooms housing options to fit your needs. Cable, internet, utilities, free laundry, and storage are all included in the contract price. In only the 2nd year of operation, Blue Square offers access to a variety of on-site restaurants satisfying various food cravings including: Roberto's Mexican Food; Subway; Orange Leaf Frozen Yogurt; and Logan's newest "full-service" dining... The Bull's Head Pizzeria & Grille. All are located on the ground floor of our anchoring building. With a beautifully equipped "private Resident Lounge", gas-powered fire pit, Jacuzzi pavilion, work-out room, sky viewing deck and more, Blue Square has quickly become the off-campus village for all Summer Citizens to enjoy!

CAMBRIDGE COURT is nestled in a quiet canyon close to Utah State University and offers both comfort and value. Our wonderful amenities include a heated indoor pool, large jetted hot tub, and inviting sundeck in a landscaped courtyard setting. There is ample parking and a convenient bus stop in front of the premises. You'll also find responsive, on-site management and a splendid social environment, social center with exercise room, community computers, foosball, BBQ grills and management sponsored socials. Prepare for a wonderful summer.

A method of teaching the language with flash cards and repetition which enables students to be introduced to the language in a fun and easy way.

INSTRUCTOR: JORGE APARICIO was born and educated in Mexico City. For 30+ years he worked for Chemithon Corp. in Seattle, WA in sales and marketing engineering and most recently as International Sales Manager in Latin America and Asia. After retiring to Sun Lakes, AZ, he has taught all levels of conversational Spanish at several venues including community college, fire departments, real estate, construction groups, and local adult communities. He's developed his own method of teaching with flash cards and repetition which enables students to learn the language in a fun and easy way.

DISCOVERING YOUR FAMILY HISTORY

\$10 CANCELLATION FEE

COURSE #	DATES	TIME	WEEKDAYS	COST	LOCATION
115	June 02 - June 06	1:30 PM - 3:00 PM	MON - FRI	\$50	EDUC - YETC Lab

Begin the exciting search for your family's story. Learn the basics to get you started researching your family history and the tips and tricks to help you continue your search. This class will focus on beginning genealogy research strategies; easy to use and easy to access sources such as census records, cemetery records and vital records; organizing your information; helpful websites, with an emphasis on those that are available for free; making the internet work for you; and fun ways to share your family history. This class will be half lecture and half personal work time, so bring your family information with you.

INSTRUCTOR: YVONNE CURRY is a professional family history researcher and lecturer. She successfully completed the NGS home study course, the BYU Family History Certificate program, has served as a FHC volunteer and on the library committee of the California Genealogical Society. She currently serves as a volunteer at the Logan Family Search Library assisting patrons and teaching genealogy classes as well as lecturing at regional genealogy conferences.

SCIENCE AND RELIGION

\$10 CANCELLATION FEE

COURSE #	DATES	TIME	WEEKDAYS	COST	LOCATION
133	June 09 - June 13	1:30 PM - 3:00 PM	MON - FRI	\$40	ENGR - 103

Explore separate areas in the progression of increasingly complex life forms through time, as proposed by the theory of evolution by the natural selection of random genetic mutation and how this relates to science and religion. Our Amazing Universe: Ken D. Wright explores what science has discovered about life and the universe. The Golden Ratio-The Pattern of Nature: Steve Murdock explains this mathematical equation that exhibits itself in geometry, art, architecture and other areas of nature. Getting Life on Earth: Dr. Frank B. Salisbury summarizes many of the attempts that have been made to discover how such complexity could come about according to the known laws of physics and chemistry. Progress has been made in suggesting ways that the elements and molecules of life might have appeared on Earth shortly after it was formed, but there are astronomically wide gaps in our understanding of how these elements and molecules might have been organized into the first functioning cell. The Origin of Life - The First Cell: Dr. Rex Spendlove describes the complexities of the simplest cell and what is necessary for this cell to survive. It soon becomes apparent that such a cell is very close to being irreducibly complex. If virtually any of the structures and functions were missing, this simple cell could not live. To at least some scientists, this complexity cries out for an Intelligent Designer, God. The Philosophy of Religion : Dr. Kent E. Robson discusses the nature of God according to several notable world religions. Life - was it an accident, or design?: Phil Nethercott will discuss why answering this question may be one of the most important decisions you may ever make. Darwinian Evolution : Dr. Frank B. Salisbury will explain the origin of species according to Charles Darwin.

INSTRUCTOR: DR. REX SPENDLOVE received his Ph.D in microbiology from Ohio State University. He has taught at the University of Connecticut and Utah State University. FRANK S. SALISBURY after earning his bachelor's and master's degrees in botany and biochemistry at the University of Utah, Frank went on to earn his doctorate in plant physiology and geochemistry at Cal Tech. KEN D. WRIGHT received his Bachelor of Arts in mathematics from Brigham Young University in 1962 and worked in aerospace as a mathematician and scientific programmer until returning to school for an MBA. KENT E. ROBSON received his PhD from Stanford University in Philosophy and is Professor Emeritus at Utah State University. STEVE MURDOCK received his BA in art and history from BYU and his M.ED, in instructional media from Utah State University. Steve successfully ran an advertising and design company for 25 years, and currently teaches at Stevens-Henager College. PHIL NETHERCOTT studied art at Brigham Young University and has sold his paintings internationally.

TEA, THEE & ME™: THE FASCINATING STORY OF TEAPOTS THROUGHOUT THE WORLD

\$10 CANCELLATION FEE

COURSE #	DATES	TIME	WEEKDAYS	COST	LOCATION
241	July 14 - July 18	1:30 PM - 3:00 PM	MON - FRI	\$40	ENGR - 101

In this fun-filled and educational class we will explore every aspect of Teapots Throughout The World: how, when, and why they were created, and how their uses and styles have changed throughout the centuries within various cultures throughout the world. We will visit a studio to watch a teapot being created, from start to finish, while also learning about different types of pottery and their uses. Sit back and enjoy a Very SPECIAL SLIDE SHOW of a rare teapot collection dating from the earliest to the most contemporary, along with the very unique. Another Special Treat is the Cooking With Tea Class, along with recipes of the goodies we will taste on this very special day. You will also learn to distinguish between antiques and reproductions, as well as all aspects of caring for, and storing, your teapots. Both women and men will leave this class with "tea-riffic" memories and so much knowledge as they come across a teapot wherever they may go, whether your interests are in collecting, purchasing, using, or learning.

INSTRUCTOR: SANDRA OPPENHEIM continues to enjoy sharing her love of history and "all things tea" with others again this summer. Well known as a writer, lecturer on tea-related topics, and collector of rare tea wares, she excites and educates others with warmth and enthusiasm. Authentic Facts and Fun are melded together for a most memorable and enlightening week! Sandi also coordinates tea-related outings for The "Gadabouts" Tea Society tm, along with popular presentations on various tea-related topics throughout Arizona, where she resides with her husband. A former executive director of non-profit agencies, Sandi has received many awards, such as from the Congress of the State of Ohio, for her outstanding accomplishments and leadership. Now retired, she is pleased to share her passion with others.

COURSE #	DATES	TIME	WEEKDAYS	COST	LOCATION
151	June 16 - June 20	10:30 AM - 11:45 AM	MON - FRI	\$40	ENGR - 302

Learning to draw expands personal confidence. We will discover this process together during this Beginning Drawing course. You will learn how to draw your subjects in a convincing and interesting way. You will learn how to size subjects into a proper perspective. You will also learn basic value shading to give dimension to your drawings. AND, the great thing about this process is that you will have FUN and find the inner artist in you. If you took my course last year, please give me another chance!! I was trying to teach too much in a short time. This year, we will stick to the basics of drawing and spread it out over more time. Be sure to bring the proper supplies: 12x16 sketch pad, 2b,b, and 2h pencils, quality eraser. That is all you need.

INSTRUCTOR: COLLEEN HOWE BLEINBERGER is a skilled landscape painter and teacher. She loves to travel and uses travel journaling to record experiences and plan paintings. HOW TO HAVE AN AMAZING MEMORY

\$10 CANCELLATION FEE

COURSE #	DATES	TIME	WEEKDAYS	COST	LOCATION
157	June 16 - June 20	3:15 PM - 4:45 PM	MON - FRI	\$40	ENGR - 103

An introduction to mnemonics, the ancient art and science of enhanced memory techniques. Students will learn techniques that will enable them to memorize lists, numbers, names and facts. The course will include an overview of the history of mnemonics and demonstrations of its remarkable power. As we age, our natural memory generally declines. In many cases, the use of mnemonics can compensate for some of this loss. However, knowing about mnemonic techniques is not the same as applying them and students will be expected to complete assignments outside of class in order to master the techniques.

INSTRUCTOR: RICHARD HATCH Although he holds two advanced degrees in Physics from Yale University, deceptionist Richard Hatch prefers apparently to violate the laws of nature rather than discover them. He is the co-owner of the Hatch Academy of Magic and Music in Logan.

163	June 23 - June 27	10:30 AM - 11:45 AM	MON - FRI	\$40	ENGR - 101

An introduction to the performance of magic using ordinary objects. Students will learn to perform magic feats with cards, coins, rubber bands, dollar bills, and even paper clips. Feats of apparent mind reading will also be introduced. Students will be required to sign a non-disclosure agreement regarding the content of the classes (the traditional "magician's oath").

INSTRUCTOR: RICHARD HATCH Although he holds two advanced degrees in Physics from Yale University, deceptionist Richard Hatch prefers apparently to violate the laws of nature rather than discover them. He is the co-owner of the Hatch Academy of Magic and Music in Logan.

THE OLD LYRIC REPERTORY COMPANY: AN INSIDER'S GUIDE FROM PAGE TO THE STAGE

\$10 CANCELLATION FEE

COURSE #	DATES	TIME	WEEKDAYS	COST	LOCATION
184	June 26 - July 02	1:30 PM - 3:00 PM	MON - FRI	\$50	ENGR - 103

Catch a glimpse behind the scenes of the Old Lyric Repertory Company. Examine the process of mounting a stage production with a series of guest lectures from the OLRC's creative team including directors, actors and designers. Learn about what it is like to be a professional actor. Learn about the past 100 years of the Caine Lyric Theatre's history and take a tour. Explore the tricks scenic painters and properties designers use to help audiences suspend their disbelief. Discover how the creative team transforms the tiny Lyric stage to make it seem much larger and how elements work together to allow five sets to be interchanged. We will take a field trip to the costume and scene shops of the USU Theatre Arts Department. The group will meet before one of the performances for a no-host dinner. The cost of tickets and the price of the dinner are not included in the course tuition but will be reasonable.

INSTRUCTOR: DENNIS HASSAN is an Associate Professor and Assistant Department Head in the Utah State University Theatre Department. He has designed over 150 productions for theatres across the United States. Dennis started working for the Old Lyric Repertory Company over 20 years ago first as performer, then as technician, scenic designer, and now as Artistic Director. He teaches period styles, scenic design, scene painting and contemporary theatre.

PLEIN-AIR PAINTING: WILDFLOWERS OF LOGAN CANYON

\$10 CANCELLATION FEE

COURSE #	DATES	TIME	WEEKDAYS	COST	LOCATION
253	July 23	9:00 AM - 4:30 PM	WED	\$80	USU Bus Turnaround

Join botanist Dr. Leila Shultz for an outdoor day of plein-air painting/sketching of Logan Canyon’s beautiful wildflowers. If you are interested in an up-close examination of flowers, this class offers a good opportunity to look at plants in a whole new way. The instructor will begin with an overview of floral structure and what defines major floral groups. While the class is not intended to be a botany lecture, you will have a chance to choose your subject for painting and get as much information as you want about what you are painting. Bring a magnifying glass if you want an explanation of microscopic detail, and be ready to see plants in a whole new way. Some supplies and materials provided, though you are encouraged to bring your own if you have them. Bus transportation and boxed lunch included in this course fee. **Per person registration fee includes bus transportation, box punch and \$10 donation to the Stokes Nature Center.**

INSTRUCTOR: LEILA SHULTZ is a Research Professor Emeritus in the Department of Wild land Resources at Utah State University. She was curator of the Intermountain Herbarium for the first 20 years of her professional career where she worked to build the collection and explore remote areas of Utah. As Research Professor in the College of Natural Resources, she has worked on a number of large-scale interdisciplinary projects to document biodiversity in Utah. She is considered an authority on the taxonomy of sagebrush (*Artemisia*) and geography of the Utah flora. She currently serves on the Flora of North America executive committee.

BASIC WEATHER FUN

\$10 CANCELLATION FEE

COURSE #	DATES	TIME	WEEKDAYS	COST	LOCATION
118	June 02 - June 06	1:30 PM - 3:00 PM	MON - FRI	\$40	ENGR - 101

Learn basic weather fundamentals in a fun way! What causes weather, wind, pressure changes and storms. Explore what the Coriolis effect is and how it effects your weather. How do various winds effect weather across the world? In this class you will learn many fun weather principles with easy to understand handouts, web site exploration, in class demonstrations and interesting experiments.

INSTRUCTOR: ZANE STEPHENS has a BS and MS from Utah State University and has his own company forecasting temperatures and weather conditions for agriculture and special events around the world. His more well known clients are Disney, The Superbowl, The Academy Awards and The Rose Bowl. He also provides forecasts for movie productions and TV shows. Mr. Stephens discovered Middle Sink and Peter Sinks meteorologically in the early 1980s as a Freshman at Utah State University. He has studied the locations for over 30 years and is an expert in inversion (cold air) meteorology.

IDENTIFICATION AND ECOLOGY OF UTAH BIRDS

\$10 CANCELLATION FEE

COURSE #	DATES	TIME	WEEKDAYS	COST	LOCATION
127	June 09 - June 13	8:50 AM - 10:15 AM	MON - FRI	\$50	ENGR - 101

We will learn to identify birds using various characteristics including field marks (plumage coloration and patterns, bill shape, etc.), sounds (songs, calls, and non-vocal sounds), and behavior (feeding, flight, nesting, etc.). In addition, we’ll investigate the ecological connections among birds and their habitats. We’ll cover a wide range of bird families found in a variety of typical western habitats from low elevation grasslands to high mountain forests. Information will be delivered through a combination of classroom presentations and field experiences. We will spend portions of our lecture time developing our field skills on campus. Also, we will discuss an optional Saturday morning field trip to Cache Valley’s best birding areas (carpooling and transportation would be on your own and binoculars would be extremely helpful). Registration fee includes a \$10 per person donation to the Stokes Nature Center.

INSTRUCTOR: FRANK HOWE, PH.D. has been on the Faculty at Utah State University for the last 7 years where he teaches Avian Ecology and Management. He spent 15 years as the Utah Division of Wildlife Resources (UDWR) Nongame Avian Program Coordinator involved with all aspects of avian ecology, biology, conservation, and research in the state. His current job as UDWR's University Liaison involves developing research projects related to critical wildlife conservation and management issues in Utah. Frank is also the Chairman of the Stokes Nature Center Board of Trustees.

NATURE AND CHILDREN- NO ADULTS WITH CHILDREN LEFT INSIDE

\$10 CANCELLATION FEE

COURSE #	DATES	TIME	WEEKDAYS	COST	LOCATION
136	June 09 - June 11	1:30 PM - 3:00 PM	MON - WED	\$30	ENGR - 101

Being with children in the outdoors is a wonderful experience, whether you are guiding grandchildren or children from a community or church group. This course will give you activity ideas and teaching tools to engage young learners in thinking about the natural world using science process skills. We will experience the wonder of nature both inside and outside of the "classroom". This course does not require extensive background knowledge of science, but instead, curiosity, observation skills, and a desire to ask the questions "What do you think?", "Why?", and "How?" Be ready to explore with children! Registration fee includes \$10 per person donation to the Stokes Nature Center.

INSTRUCTOR: LINDA L'AI is currently the Curriculum Director at the Edith Bowen Laboratory School. She graduated with a B.S. in Biological Sciences from the University of California, Davis, where she also received her Elementary and Secondary Teaching Credentials. She received her Master's Degree and Bilingual Certification (Spanish) from the California State University, Sacramento. Her major interest is in the integration of math and science in all areas of the curriculum and providing students with learning experiences in a meaningful context. Linda is on the Stokes Nature Center Board of Directors and has been an advocate for environmental education for the last 42 years. She is the 2011 Utah recipient of the Presidential Award for Excellence in Mathematics and Science Teaching in Elementary Education.

This Course would be offered one Thursday morning from 9 am to 12 pm that starts indoors and finishes outdoors, all on campus. We would do a walking field trip. We will learn about tree identification, unusual trees, trees of the West, and trees of Utah. We will also cover how to identify trees, how trees work and grow, and then go out and look at interesting and unusual trees on the USU campus All registration fees collected for this course will be donated to the Stokes Nature Center.

INSTRUCTOR: DR. MICHAEL KUHNS received his B.S. in Forestry in 1977 from the University of Missouri and his M.S. in Forest Ecology/Tree Physiology from Missouri in 1980. After working for the Medicine Bow National Forest, he returned to school in 1982 and received a Ph.D. from Auburn University in 1986, specializing in tree stress physiology. His first extension position was forestry specialist at the University of Nebraska, which was followed by him taking his present position as Utah State University extension forestry specialist, which he has held for 20 years. His programming in extension involves urban and community forestry, trees and forestry in the wild land-urban interface, and rural/conservation forestry. Currently he also is the interim head of the Wild land Resources department at USU.

PREDATOR RESEARCH FACILITY FIELDTRIP

\$10 CANCELLATION FEE

COURSE #	DATES	TIME	WEEKDAYS	COST	LOCATION
193	July 02	9:00 AM - 12:00 PM	WED	\$20	Macey's Flagpole

Join Dr. Eric Gese for a behind the scenes tour of the USDA National Wildlife Research Center, located in Millville, UT, a short drive from Logan. Participants will learn about predator-prey interactions, non-lethal management of predators, and experience close encounters with the facility's resident coyote packs. This government facility works closely with research scientists to learn about predator behavior, their relationship with prey, and how human activities impact their habitat and behavior. This fieldtrip offers participants to observe coyote packs, and learn about leading research on predators in America. Registration includes a \$10 per person donation to the Stokes Nature Center.

INSTRUCTOR: ERIC GESE has been conducting field research on wild carnivores since 1983 with a major focus on the behavior, ecology, and management of coyotes, wolves, and foxes in North America, plus research on jaguars and pumas in Brazil. Research interests also include wildlife damage management, predator-prey relationships, and behavioral ecology of carnivores. Currently a Research Wildlife Biologist with the Predator Ecology and Behavioral Applications Field Station with an appointment as Research Associate Professor in the Department of Wild land Resources at Utah State University.

This class is intended for novice to intermediate anglers. Student should have their own fly rod, reel, and lines. Registration includes a \$10 per person donation to the Stokes Nature Center.

INSTRUCTOR: BRETT ROPER has been angling all of his life. He is faculty in Watershed Sciences Department at Utah State University and writes a hunting and fishing column for the local paper

THE FLORA OF LOGAN CANYON AND VICINITY

\$10 CANCELLATION FEE

COURSE #	DATES	TIME	WEEKDAYS	COST	LOCATION
232	July 14 - July 18	10:30 AM - 11:45 AM	MON - FRI	\$50	ENGR - 103

Learn about the trees, shrubs, wildflowers, grasses and wetland plants found in Logan Canyon and Cache Valley. Topics include: distribution of plant communities, plant adaptations to environmental factors (topography, climate, soil, fire, and pests), floral structure and pollinators, toxic properties of poisonous plants, traits of invasive weeds, symbiotic relationships with other organisms, and more. These topics will be highlighted in slide presentations and hands-on activities with plant materials in the classroom during the first 4 days of the week-long course. A half-day field trip for viewing plants in their natural habitats in Logan Canyon is scheduled for the last day of the course. Registration fee includes \$10 per person donation to the Stokes Nature Center.

INSTRUCTOR: CHRISTOPHER CALL is a Professor (Emeritus) in the Wild land Resources Department at USU. He has taught courses in plant ecology and plant identification for the past 27 years. His research focused on weed invasions, wildfires, and the restoration of disturbed rangelands in the Intermountain West. He is an avid hiker, biker, snowshoer, and field botanist, and is very familiar with the plants and landscapes in Logan Canyon and Cache Valley.

NATURAL HISTORY AND ECOLOGY OF LOGAN CANYON

\$10 CANCELLATION FEE

COURSE #	DATES	TIME	WEEKDAYS	COST	LOCATION
235	July 16	9:30 AM - 4:00 PM	WED	\$75	USU Bus Turn-around

A walk around Tony Grove Lake provides an ideal setting for learning about the dominant plant communities, geologic history, and cultural practices that have shaped the landscape of the northern Wasatch mountains. The terrain is steep and rocky, but we will keep to a trail that is fairly flat, and one that crosses a number of different kinds of habitats: from sagebrush flats, spruce-fir forest, rock outcrops, and a boggy meadow with native orchids and saxifrages. The instructor is a retired professor of botany in the College of Natural Resources whose research has focused on the classification of North American flora and the distribution of native plants in Utah. Tony Grove was named for the "Tony" set of young people who found the subalpine meadows and glacier carved valley a cool retreat during hot summers in the early 20th century. The name stuck, and the area is a popular picnic and camping retreat for visitors of all ages and geographic origins. Hundreds of species of native plants grow here. Late July is the best time to witness a spectacular bloom and become familiar with the most conspicuous of these species. Per person registration fee includes bus transportation, box lunch and \$10 donation to the Stokes Nature Center.

INSTRUCTOR: LEILA SHULTZ is a Research Professor Emeritus in the Department of Wild land Resources at Utah State University. She was curator of the Intermountain Herbarium for the first 20 years of her professional career where she worked to build the collection and explore remote areas of Utah. As Research Professor in the College of Natural Resources, she has worked on a number of large-scale interdisciplinary projects to document biodiversity in Utah. She is considered an authority on the taxonomy of sagebrush (*Artemisia*) and geography of the Utah flora. She currently serves on the Flora of North America executive committee.

MAMMALS OF UTAH

\$10 CANCELLATION FEE

COURSE #	DATES	TIME	WEEKDAYS	COST	LOCATION
244	July 14 - July 18	3:15 PM - 4:45 PM	MON - FRI	\$50	ENGR - 103

Lions, tigers and bears, (well, no tigers in Utah, but lions and bears)! In fact, in this course we will learn about a wide variety of Utah's diurnal and nocturnal mammals. We will begin with a gentle introduction to mammal identification and classification. Then we will explore how mammals' different "life styles" and physical adaptations allow them to use different habitats; here we will look at functional groups such as below-ground (subterranean), tree-dwelling (arboreal), and water-loving (aquatic) mammals. We'll also investigate how mammals deal with changing seasons through migration, hibernation, and adaptation and conclude by looking at the reproductive strategies of Utah's mammals. The course will also feature a special session on Utah bats including an optional evening session including bat trapping and detection of bats with echolocation technologies. Registration fee includes \$10 per person donation to the Stokes Nature Center.

INSTRUCTOR: DR. MICHAEL WOLFE Professor Emeritus of Wild land Resources at Utah State University, was born and raised on Long Island. He received a B.S. in Wildlife Management from Cornell University and a doctorate in Wildlife Science from the University of Göttingen, Germany. Following a postdoctoral research position he joined the faculty of the College of Natural Resources in 1970. He has taught a broad spectrum of natural resource courses Mike's principal research interests lie in the area of ungulate and carnivore ecology and management, and he has worked with numerous big game species as well as feral equids. Currently he is Principal Investigator for a study of cougars in Utah in progress since 1995. He has also had a long working relationship with management agencies including a two-year contract with the Utah Division of Wildlife Resources as Mammals Program Coordinator. Mike has also lived and worked extensively in international venues including the former Soviet Union, Australia and South America. These teaching and research assignments have been under the auspices of various exchange programs including the Fulbright Commission, Organization of American States and the National Academy of Sciences. Mike's avocations include hunting, blue-water sailing, nature photography, curling and playing the concertina.

WATER AEROBICS

\$10 CANCELLATION FEE

COURSE #	DATES	TIME	WEEKDAYS	COST	LOCATION
100	June 02 - August 01	7:45 AM - 8:30 AM	MON/WED/FRI	\$90	HPER - Small Swimming Pool

Energetic 50 minute water aerobics routine with music. Instruction includes warm up, 20 minutes of aerobic moves designed to build endurance and muscle groups, ten minute water weight work, abdominal work and thorough stretching. Students work in the shallow end but may adapt the routine in the deep end while wearing flotation belts. Water noodles and weights are utilized in each routine. Instructor demonstrates moves while on pool deck, but can work in water with class if desired. Age and ability of the class is taken into consideration at each class. Care is taken to ensure no injuries occur and proper technique is used. Routines are changed frequently for variety and cross training. Instructor views water aerobics as a therapeutic exercise for body, mind and spirit that can be enjoyed by young and old alike and at many ability levels. Routines can be adjusted to be gentle or very vigorous workouts. The class is a great social outlet as well and includes levity and fun!

INSTRUCTOR: JENNIFER BENSON has been practicing water aerobics for over 16 years as both student and instructor. She has worked as instructor of the evening classes at Smithfield Rec Center for four years. She focuses on exercise for weight loss, body toning and strength at all ages and has seen success herself in the discipline, having lost 70 pounds and maintained the loss for 7 years. Music in routines is important and she creates her own song playlists designed to motivate students. Jennifer has experience in teaching shallow end aerobics and deep end aerobics. She teaches while working with the class in the water or from the pool deck demonstrating moves. Equipment used includes water weights, water noodles, strengthening bands, water belts and ankle weights. Kick boxing, Pilates, circuit training, weight training, ballet and yoga are incorporated in her routines. Jennifer has enjoyed performing and leading others since childhood, having worked as a musician performing vocals and piano, theatre, cheerleader, and afternoon daily talk show reporter on KSL radio. She resides in Hyde Park with her husband and is the mother of three spunky adults. Jennifer is currently director of her church choir and a vocalist in her community.

106	June 03 - July 31	9:00 AM - 9:50 AM	TUES/THUR	\$70	HPER - 215

The Zumba Gold program targets the largest growing segment of the population: baby boomers. It takes the Zumba formula and modifies the moves while bringing down the pace. What stays the same are all the elements the Zumba Fitness-Party is known for: the zesty Latin music, like salsa, merengue, cumbia, and reggaeton; the exhilarating, easy-to-follow moves; and the invigorating, party-like atmosphere. The boomer group wants camaraderie, excitement and fitness as a regular part of their weekly schedule. The Zumba Gold class is the perfect fit, and the right choice for those just starting their journey to a fit and healthy lifestyle. It's a dance-fitness class that feels friendly, and most of all, fun.

INSTRUCTOR: STACEY JACKSON is so excited to be taking over the Summer citizens Zumba® Gold program! Most of you will know her because she had been subbing for Becky during the last couple of summers. Stacey has been teaching Zumba® for about 4 years. It has brought so much happiness to her life, and when Becky introduced her to Zumba® Gold, she never imagined she would love that even more! Stacey can't tell you how much fun it has been getting to know the summer citizens over the last couple of years. Not only has she enjoyed "shake'n it" with you but you have touched her heart. Stacey not only teaches Zumba ®Gold, but regular Zumba and Zumba kids. She can't wait to see you all this summer!

WHAT DO ALL THOSE LAB TESTS MEAN?

\$10 CANCELLATION FEE

COURSE #	DATES	TIME	WEEKDAYS	COST	LOCATION
190	June 30 - July 03	10:30 AM - 11:45 AM	MON - THUR	\$40	ENGR - 103

Most seniors meander through healthcare with a myriad of laboratory tests. Often confusing, the results may not be what was expected nor are the implications well understood. Indeed, many times there are expectations that those tests ordered are sufficient to diagnose all conditions. In this course we shall look at the different basic clinical laboratory tests as well as some other less well known diagnostic tools used by physicians. We'll break them down into physiological as well as the scientific disciplines involved. We'll learn how the tests are performed, what are possible sources of error, how to interpret results, and how to understand and use the results to better communicate with our healthcare team.

INSTRUCTOR: DAVID SHERER, MD, a board certified clinical pathologist, was formerly director of Clinical Laboratories for Group Health Cooperative of Puget Sound, a Seattle based comprehensive health-care system caring for over 500,000 enrollees in the Pacific Northwest as well as a clinical assistant professor of Laboratory Medicine at the University of Washington School of Medicine. He created, computerized and led a system of over 40 hospital, outpatient and reference laboratories. He pioneered delivering results of lab tests directly to patients as well as to their physicians and integrating "reflexive" test groupings to provide optimal use of available resources.

COURSE #	DATES	TIME	WEEKDAYS	COST	LOCATION
130	June 09 - June 13	10:30 AM - 11:45 AM	MON - FRI	\$40	ENGR - 103

An overview of the genesis, causes and legacies of an assault on humanity with its violations of the human rights of the "Other" during the Nazi regime, 1933-45. Our workshop will address the historical, social and psychological forces, ideas and events leading to the Holocaust, the attempted annihilation of all Jews, the nearly successful destruction of the European Jewish communities (Shoah), and the murder of many non-Jewish "Undesirable Others".

INSTRUCTOR: R DAVID KRYDER is member of the Pima County Community College Adjunct Faculty on Pima's Community Campus, Tucson, Arizona, where he teaches "History of the Holocaust" in OnLine mode. Prior to moving to Southern Arizona, Kryder served on the faculty of Cornell University, Ithaca, NY where he taught "Intellectual Property Law and Contracts" and directed classes and workshops related to IP Law, on all six of the inhabited continents. Kryder has extensive business experience and is the Executive VP for Intellectual Property and Contracts with Heartland Consulting/Heartland Group. Resulting from his belief in community service, Kryder volunteers, part-time, as a Small Claims Hearing Officer (Judge) with the Pima County Consolidated Justice Court.

FAMOUS LAWMEN AND OUTLAWS OF EARLY ARIZONA

\$10 CANCELLATION FEE

COURSE #	DATES	TIME	WEEKDAYS	COST	LOCATION
145	June 16 - June 20	9:30 AM - 11:00 AM	MON - FRI	\$40	ENGR - 101

Class consists of five sessions and includes interesting and little known facts about some lawmen and outlaws who shaped the history of Arizona. Individuals like Jeff Davis, John Slaughter, Burt Alvord, Al Sieber, The Apache Kid, and groups like Burt Mossman and the Arizona Rangers and Wyatt Earp and his "posse of revenge" will be discussed. In two cases the men involved were both lawmen and outlaws, not an uncommon event in the early West. One session of the class will cover the life and times of Tom Mix, the famous western movie star, who also had a lawman's background, but was selected for this class because of his long standing relationship with Arizona (he lived, married, worked and died in Arizona), and his significant influence in introducing to the world the Arizona country and the role of our cowboys and lawmen in taming the west.

INSTRUCTOR: GERRY MILLER first gained his interest in western history when he moved to Dodge City, KS in 1959. Through the intervening years Gerry continued his reading and research on western lawmen. Upon retiring to Arizona in 2000 Gerry began to intensively study Arizona lawmen by interviewing family members and friends, visiting towns and homes where these men had lived, and digging through museums and private historical collections. Gerry has appeared on National Public Radio, lectured throughout the state of Arizona, and now performs a two-hour one-man re-enactment of Sheriff John Slaughter. He teaches at the Institute of Retired Living (IRL) in his community near Tucson, and has lectured at the Western National Parks Association.

COURSE #	DATES	TIME	WEEKDAYS	COST	LOCATION
148	June 16 - June 20	10:30 AM - 11:45 AM	MON - FRI	\$90	ENGR - 103

This course covers two full weeks and is intended to supply a comprehensive look at how and why the United States chose to become involved in nations beyond the natural borders of the country. It also involves discussions of the varieties of involvement that include networks of spies in the Revolution to current controversies involving the NSA. The first week, taught by Prof. Peterson, will examine the justification of intervention from the founding of the republic up through the Vietnam War. Prof. Johnson will use her personal experiences and expertise to analyze and evaluate more current forms of intervention-military and civilian, clandestine and open, unilateral or with partners. The students will leave with secure knowledge that they are blessed to live in a world where all texting, emails, cell phone conversations, and twitters can be viewed by all.

INSTRUCTOR: ROSS PETERSON, PH.D is an emeritus professor of History at USU and has taught summer courses on many occasions. His expertise is more recent US History.

In a few pages, great short stories capture and illuminate the events of real life. They will challenge our intellect and emotions to the highest degree as we learn what is in the hearts and minds of the authors as well as their intention for the reader to discover something remarkable in their writing. We will read several stories and interpret, clarify, and most of all, perceive the human experience through our interaction and sharing our ideas through class discussion.

INSTRUCTOR: ROBERTA KLEBANOFF received her BA from Hunter College, NY, and M.ED from the University of Maryland. She has taught English and writing in secondary schools and colleges in Maryland and Mission Viejo, CA. In 1997, she ventured to China where she taught Oral English, reading comprehension, and Understanding American Culture. She has also taught in Germany, Alaska, and Italy. At the present time, she is tutoring college students in expository writing and essays exploring the elements of fiction in Palm Desert, CA.

CRUISE THROUGH HISTORY - ITINERARY 1 LONDON TO ROME

COURSE #	DATES	TIME	WEEKDAYS	COST	LOCATION
196	June 30 - July 03	1:30 PM - 3:00 PM	MON - THUR	\$40	ENGR - 101

Take a cruise through history without leaving Logan. Travel along a cruise itinerary through time and place to enjoy stories your history teachers never told you. Discover fun facts about familiar characters and meet new characters in their homes, castles, and churches, the remnants of which decorate the landscape today. Each day the class will visit two cruise ports, along one of three itineraries, London to Rome, Rome to Venice, and the Black Sea. For example, in Seville visit with Cervantes, whose real life adventures are more amazing than those of his fictional Don Quixote. In Nice, the story is favorite son Garibaldi, whose relationships with women helped him to assemble modern day Italy. In Florence the center of attention is Isabella d' Este, patron of Titian and Da Vinci, style setter of the Renaissance, who negotiated with popes and politicians. In the heel of the boot of Italy, the class will walk through Lecce counting Zimbalo's angels. See 4th century Ravenna through its patron and mother of the western world, Galla Placidia, and follow Ovid into exile in Constantia, on the Black Sea, in 10 AD. While on the Black Sea, see what resulted from an international architecture competition sponsored by Stalin, for Sochi, and visit a hidden monastery in Trabzon, Turkey. The stories are illustrated with historic and recent photos, art, and original cartoons that accompany the short story collection Cruise through History.

INSTRUCTOR: SHERRY HUTT PH.D. draws upon her research in economics, law, history and art, having written several law texts and dozens of journal articles, during her teaching in law and graduate schools in Arizona, Boston, California and Washington, DC, as she now writes non-fiction short stories for adult adventurers in the series Cruise through History. Dr. Hutt was a trial judge in Arizona for 17 years and a trustee of the Heard Museum in Phoenix, before pursuing a post-doctorate fellowship at the Smithsonian Institution. She is a cultural property lawyer, having prosecuted archaeological looting and international art theft crimes for the Justice Department, founded a non-profit in Washington, DC, the Lawyers' Committee for Cultural Heritage Preservation, and advised the Bush and Obama White Houses on international cultural property issues. For the last ten years she has led a national program for cultural property repatriation in the Department of the Interior, working with all federal agency collections, public, private and university museums, and tribes. For twenty-five years she has traveled the world taking photos and adding to her research. She now enjoys telling stories to cruise travelers.

Next to affairs of the heart "War appeals to something deep within the human soul", or so say the philosophers. No surprise how much of it is expressed through the Arts, Film, particularly since the 20th century. In this course, through film (and other art forms, bracketed by brief historical lectures) we will explore the relationship between Art and other major areas of human activities. We will visit battlefields, but go beyond to the home fronts (at peace, as well as in war), to feeling heart ache and heartening laughter and tears.

INSTRUCTOR: DR. MARC ROSS received his BA from Columbia College, his MA from Harvard University and his Ph.D. in history from New York University. He was an Adjunct Assistant Professor in the Adult Degree Program at New York University and also part of the Readers Digest Teacher Leadership Program. He has had numerous years of experience in research and the teaching of history. Dr. Ross looks forward to his twelfth summer teaching in the Summer Citizens Program.

See 4th century Ravenna through its patron and mother of the western world, Galla Placidia, and follow Ovid into exile in Constantia, on the Black Sea, in 10 AD. While on the Black Sea, see what resulted from an international architecture competition sponsored by Stalin, for Sochi, and visit a hidden monastery in Trabzon, Turkey. The stories are illustrated with historic and recent photos, art, and original cartoons that accompany the short story collection Cruise through History.

INSTRUCTOR: SHERRY HUTT, PH.D. draws upon her research in economics, law, history and art, having written several law texts and dozens of journal articles, during her teaching in law and graduate schools in Arizona, Boston, California and Washington, DC, as she now writes non-fiction short stories for adult adventurers in the series Cruise through History. Dr. Hutt was a trial judge in Arizona for 17 years and a trustee of the Heard Museum in Phoenix, before pursuing a post-doctorate fellowship at the Smithsonian Institution. She is a cultural property lawyer, having prosecuted archaeological looting and international art theft crimes for the Justice Department, founded a non-profit in Washington, DC, the Lawyers' Committee for Cultural Heritage Preservation, and advised the Bush and Obama White Houses on international cultural property issues. For the last ten years she has led a national program for cultural property repatriation in the Department of the Interior, working with all federal agency collections, public, private and university museums, and tribes. For twenty-five years she has traveled the world taking photos and adding to her research. She now enjoys telling stories to cruise travelers.

HISTORY, CULTURE, AND CUISINE OF LOUISIANA

\$10 CANCELLATION FEE

COURSE #	DATES	TIME	WEEKDAYS	COST	LOCATION
256	July 21 - July 25	10:30 AM - 11:45 AM	MON - WED/FRI	\$40	ENGR - 103

Louisiana is three states. The northern half was settled by mostly small farmers with some large plantations along major rivers. History, culture, and cuisine of this area is similar to Southern regions. The eastern quarter was settled by French Creoles. Their lifestyle and their cuisine will be discussed and demonstrated. The western quarter was settled by dispossessed Acadians from Nova Scotia. Their hardships and development of their culture will be reviewed. This course will be taught as a classroom lecture series emphasizing the culture and history of Louisiana accompanied by detailed instructions and recipes for preparing the dishes. Lesson One-North Louisiana: Small Farms and Plantations; Follow the story of a century of a family settling in Caddo Parish Subsistence foods, gardens, meats. Lesson Two-French Creole: France claims the land drained by the Mississippi River; French settlers create New Orleans; Plantations; Exotic recipes. Lesson Three-French Creole continued. Lesson Four-Acadian (Cajun): Acadian settlers are loaded on ships and dropped onto the Gulf shores of Louisiana; The harsh conditions of the land creates a unique people with a tasty cuisine. Lesson Five-Acadian continued I was raised in the southwest part of Louisiana, Cajun country. I embrace and love the Cajun culture, it is like no other that I have experienced. I enjoy cooking and have learned the "old" ways of cooking all of the diverse cuisines of Louisiana. Additional fees may apply for cost of food in sampling recipes prepared by the instructor for the students.

INSTRUCTOR: RON COWICK is a cook, not a chef. Ron learned to cook from his mother. He says she was a meat and potatoes, biscuits and gravy, fried chicken on Sunday, country style cook. Ron's family moved to Louisiana in 1949. Talk about culture shock! The natives spoke a strange language. They exhibited a casual lifestyle. And, their cuisine was wonderful! Ron embraced the Cajun culture and learned to cook "Calcasieu Parish" style Cajun dishes. North Louisiana cuisine is like that his mother taught him. Creole gastronomy is unique and complex that Ron learned by many hands-on trials. Ron has studied the regional cuisine of Louisiana and has collected recipes from the "old" cooks. He prides himself to prepare dishes like they were meant to be served, the way the old cooks prepared them.

This course will cover the on-set of Military and Commercial Aviation in the post-World War II Cold War environment as the transition from propellers to turbo-prop to turbo-jet and turbo-fan propulsion ushered in huge advances in structures / avionics / computer technology shrunk the world in travel time and cost. At the same time, rocket technology advanced to include medium range and Intercontinental Ballistic Missiles (both land-based and submarine-based). In parallel, the dawn of the Space Age with Sputnik in 1958 launched the space race with the Soviet Union, leading to the Moon landing, International Space Station and now the Commercial aspects of Space / Satellites, the Mars Rovers and early planning for human voyages to Mars. Recent developments in the areas of UAVs /Drones have captured the the interest of both military and commercial leaders because of their unique capabilities which are now leading to new FAA regulations concerning safe operation. Despite cut-backs in Defense spending, planning is proceeding for the next generation of war fighting machines including helicopters, fighters and bombers with big decisions required as to whether they will be manned or unmanned. The course will cover the latest thinking for the future in design, fabrication, assembly and operation of these new aviation /space systems.

INSTRUCTOR: ALLEN HAGGERTY is the retired Vice President-General Manager of Boeing's Military Aircraft & Missiles Group. He spent 40 years in the aerospace industry designing, manufacturing and managing helicopters, fixed-wing commercial and military transports, fighters and missiles. He is an active consultant to the Pentagon, major aerospace corporations and has been an expert witness in numerous court cases.

PowerPoint is a presentation tool in which you create a series of slides and enter graphic objects on each slide. Graphic objects include not only any of the "AutoShapes" that come with the program but also any picture file that you have captured with a digital camera or scanner. Once you have placed the desired objects/pictures on each slide, you can then run the slide show and show the slides in a linear movement (one after the other). In our class you will not only accomplish that but will also work on a presentation that will allow you to run the show and while it is running you will be able to select and direct the computer to go to the slides you wish to show. Therefore, the presentation is interactive with the operator. Another special feature is that you can create your own .JPG pictures and then save them to your computer as .JPG pictures to be used in other programs. Finally, when finished with the project, you can create a WMV file (video) from your slides to be shown as a video file.

Course description: Excel is a spreadsheet type program. If you do a lot of recording amounts and adding columns of figures and you do it by hand, writing the amounts and then using a calculator to add certain columns to keep track of income and expenses, then maybe you can save a lot of time and also become much more accurate in your math using a spreadsheet. In this course you will be able to enter data, text and numeric, and then with certain functions (formulas) you'll be able to have the computer automatically doing mathematical calculations (add, subtract, multiply or divide) in your vertical or horizontal columns. Our goal will be to create a program that lets you enter data and have the computer automatically post the amount to a set column designated by an account number, alert you of an error, and in the same process create a statement.

The Summer Citizens

SCHOLARSHIP ENDOWMENT FUND

In September of 1985 leaders of the Summer Citizens Program initiated a scholarship endowment fund at Utah State University. The purpose of this fund is to provide an enduring expression of gratitude to USU and to the people of Cache Valley for their hospitality. The Fund is a symbol of the satisfying relationships among those persons who make their summer homes in Cache Valley, the university, and the community. Recipients of awards from this Fund are known as Summer Citizens Scholars. Summer Citizens Scholars typically are those students who demonstrate financial need, personal integrity and academic achievement.

Recipients are graduates of a Cache County or City of Logan high school, legal residents of the county and citizens of the United States. Special consideration is given to recipients who would be unable to pursue a higher education without financial assistance. Thanks to the Summer Citizens, in 2013 one student was awarded the Summer Citizens Scholarship to pursue an education at Utah State University.

You can donate to the scholarship fund at the time of registration. When you register online, there is an option to add a donation to your registration. If you mail, fax or call in your registration, just indicate that you want to make a donation and the amount. This will be charged to you at the time of registration. You can also donate throughout the summer at the Summer Citizens Office in the lower level of the Eccles Conference Center, room 103.

2013 SCHOLARSHIP RECIPIENT

Holly Howell

The 2013 Summer Citizens Scholarship was awarded to Holly Howell during the 2013 End of Summer Closing Social Luncheon. Holly graduated from Mountain Crest High School in June, 2013 with a cumulative GPA of 3.9 and a class ranking of 72 out of 504. Holly was heavily involved in community activities by volunteering her time with the orphanage support services, participating in various Humanitarian projects, and serving as the Young Women Class President for her church group. She was also involved with Track and Field and the National Honors Society throughout her high school experience. Holly also had the opportunity to attend Girls State and represent Utah, where she learned about the United States' Government and participated in mock political sessions. Holly is a fine example to other youth in the Cache Valley community and statewide. She is very excited about her future and with the financial assistance from this scholarship looks forward to fulfilling her educational goals.
