

October 2016

## Fall Is In The Air!

Brilliant red, vivid orange, and stunning yellow leaves are starting to decorate Cache Valley as summer ends and fall begins. Logan is celebrating the start of fall with many different fun activities! Students have started filing into campus with the beginning of a new mind-stretching school year.

Utah State University had the first football game in the new Maverik stadium. The Aggies started the season with a triumphant game against Weber State ending with a victorious score of 6-45. We hope you continue to cheer on the Aggies in future football games!

Halloween is just around the corner and we second the words written by an anonymous author who said, "When black cats prowl and pumpkins gleam, may luck be yours on Halloween!" We hope you have a fa**BOO**lous month!

"Within the first week after arriving, we were blown away by the friendliness of the USU staff, local citizens, businesses, etc. What a fun and culturally uplifting summer this has been. We are excited to find out how the 2017 program can expand our 2016 experience!"

# AGGIE ICE CREAM

**Ever wondered what the best ice cream tastes like?**

After trying our famous Aggie Ice Cream, you might just know exactly what it tastes like! Aggie Ice Cream began its days in 1888 within the walls of a measly room in Old Main at USU. A few years later in 1920, the great Gustav Wilster joined USU and helped revitalize a curriculum in the Dairying department. New machinery was purchased and it became possible to produce and distribute cheese, butter, and ice cream in larger amounts. This obviously was delightful to the consumers! In 1968 the new Nutrition and Food Sciences department was created, leading to new teaching and programs for food and nutrition. In 1975 the current home of Aggie Ice Cream was constructed which includes a modern creamery inside the building. Today one can enjoy his or her ice cream on the east edge of the university campus. With over 100 years of ice cream making and scooping, an important tradition has been created. With 26 flavors both kids and adults alike can enjoy their favorite ice cream here in Cache Valley! Make sure to take time during your next visit to enjoy one of life's greatest treats—  
**ICE CREAM!**

## AGGIE ICE CREAM TRIVIA!

- Q1. What's the most popular flavor?
- Q2. What ice cream flavor is named after a famous Aggie tradition?
- Q3. How many flavors of ice cream are there?
- Q4. What else does Aggie Ice Cream make?

# SPOTLIGHT

## INTRODUCING THE NEW SUMMER CITIZEN ASSISTANT.....

The Summer Citizen program recently hired a new Summer Citizen Assistant. Her name is Madyson Perkes and she is from Hooper, Utah a small town near Ogden. She has 5 younger brothers and loved growing up as the oldest and only girl! Some of her favorite things include fishing, hiking, elephants, and eating watermelon! She is currently a senior at Utah State University. She will be graduating in May with a major in Business Administration and a minor in Marketing. She spent this last summer in the Philippines on an internship with a microfinance company. There she was able to meet with business owners and educate them on basic business skills and principles. She said, "It was an amazing experience and I learned so much from the people. I'm so grateful for the opportunity I had to spend a summer in the Philippines! It's a summer I'll never forget!" She was able to do so many fun things while she was there like visiting Chocolate Hills, swimming with whale sharks, and hiking to Taal Volcano! Madyson also had the opportunity to live in the Houston, Texas area for 18 months as a volunteer. She loves Texas, but not the Texas summer or Texas-size bugs! She's excited to be part of the Summer Citizen Program and looks forward to meeting each of you!
