**Thank You  
Arizona!**

We enjoyed our trip to Arizona so much! Thank you to all of you who took time out of your busy schedule and came to an informational seminar. We saw many familiar faces and made numerous new friends. In fact, at most of our presentations 40-50% of the attendees had never been to Logan. We plan to change that! Thank you to all who are talking about and sharing the Summer Citizens Program in your communities. We hope to see you all this summer!!

“Logan fits EVERYONE'S idea of a perfect summer away from home. Any sport you desire for exercise and fun, classes for your brain, concerts to enjoy on any level of preference, fabulous musicals and plays to attend, restaurants inviting any taste experience and comfortable apartments to choose from. How can you go wrong? We will keep coming back and back and back.”

# 5 March Madness Facts

MARCH  
EVENTS

**1. Your odds of filling out a perfect bracket are not good.** In fact, they are lower than your odds of winning the lottery, getting struck by lightning, and having a boa constrictor emerge through the pipes in your toilet all on the same day. [Wallethub](#) says your chances of nailing every pick are 1 in 9.2 quintillion!

**2. The NCAA tournament may be the ultimate time-burgler.** [Wallethub](#) estimates that hourly corporate losses will amount to roughly \$1.9 billion as a result of workers whose productivity has been diverted by March Madness.

**3. 2008 may hold the record for being the most predictable tournament ever.** It is the only time that all four No. 1 seeds—Kansas, North Carolina, UCLA, and Memphis—locked horns in the Final Four.

**4. The phrase “[March Madness](#)” was first coined in connection with the NCAA in 1982** when sportscaster Brent Musburger uttered it during his tournament coverage. The phrase was ultimately at the center of a 1996 legal entanglement with the Illinois High School Boys Basketball Championship, which had been using it since 1939. The court proceedings led to the highly unusual decision granting each party its own separate rights to the “dual use trademark.”

**5. Americans will eat a lot of pizza and drink a lot of beer in March.** We all know who the real winners are. According to [Wallethub](#), while American beer companies produce an average of 14 million barrels a month, that number will bloat to somewhere between 17-18 million barrels in March. Pizza orders also increase by 19%.

# Meet Some Instructors!

**Lucille Hansen** is teaching TWO classes on why many important business men choose to live in Cache Valley. You'll have a chance to learn about four of our early entrepreneurs: David Eccles, Marriner Eccles, Charles Nibley and the Thatcher Family.

You'll also have a chance to meet our modern day entrepreneurs. We'll talk to CEO's from Gossner Foods, Icon, Lazy One, Casper's Ice Cream, Triac Medical, and Stander Inc.

In July there is an opportunity to travel to Brigham City to see evidence of the most successful Pioneer Co-op the world has ever known. That tour will also feature lunch at Maddox and a visit to the Brigham City Museum.

Lucille Hansen will be teaching Course #128 and #153, as well as leading the Brigham City Tour (Course #157). Don't miss out on these unique classes!

**Nathan Blaylock** is a Multimedia Developer for the Emma Eccles Jones College of Education and Human Services at Utah State University. He primarily works with media authoring tools to create websites, graphics, magazines, and more.

When Nathan isn't working, or learning something new, he loves spending time with his wife and daughter, working in the wood shop, camping, or reading a young adult fiction novel.

Nathan will be teaching Course #114 and #141. Sign up today!

If you have already registered and want to add one of these classes, please call (435)797-2028

**Course 122 and 125** (found on pages 16 + 17 in Program Book), titled "How Airplanes Fly: See the Picturesque Cache Valley from the Air!" have been moved due to instructor request to **June 24th - June 28th.**
